clockodo

Time tracking for small and medium sized businesses
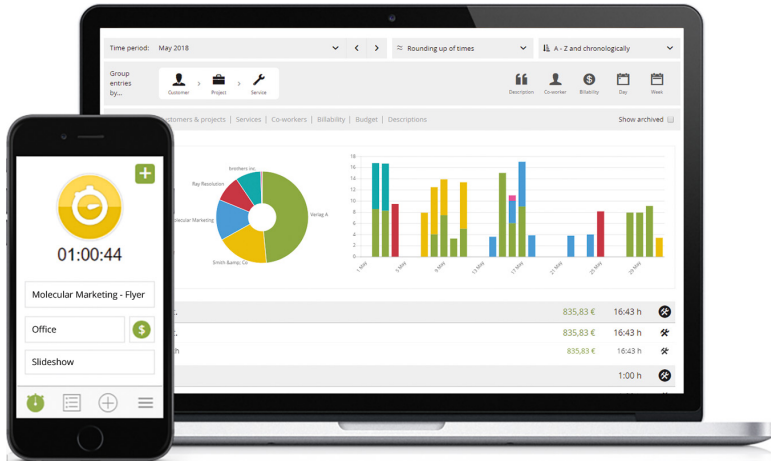

MADE & HOSTED IN **GERMANY**

What do I need clockodo for?

clockodo is a smart tool to track your working time easily but precisely, match time entries to customers and projects, and evaluate and apply the data. clockodo organizes your time tracking, simplifies invoicing, and frees up space for core tasks. Using clockodo, managers benefit from always acting within the law – for example concerning the Working Hours Act.

Why is clockodo so unique?

clockodo turns an important but unpleasant topic into a user-friendly tool. Users don't need instructions thanks to an intuitive interface. The function in focus is the clockodo stop watch you can activate with just one click. It operates as a desktop application in your bureau and as a smartphone app on the road. Optimized processes and different functions help you, your employees, and the whole company to operate best.

What is clockodo?

clockodo is a time tracking software for small and medium sized businesses. Ready-to-use. Extremely easy. Precise and reliable. Several thousand companies and freelancers use clockodo daily, tracking their working time, controlling resources, and staying on top of things. As one of the most established cloud-based time tracking programs throughout the market, clockodo offers the best mix of technical maturity and permanent development.

Who benefits from clockodo?

clockodo is built for small and medium sized businesses as well as freelancers who need a time tracking software compatible with other applications.

How can I use clockodo?

Create an account at www.clockodo.com and try it for 14 days – no credit card required.

Is there support?

We offer support via e-mail with personal point of contact.

Who develops clockodo?

The software company clickbits GmbH in Unna, Germany, created clockodo in 2011. Since then, clickbits develops the tool continually.
